

CSS

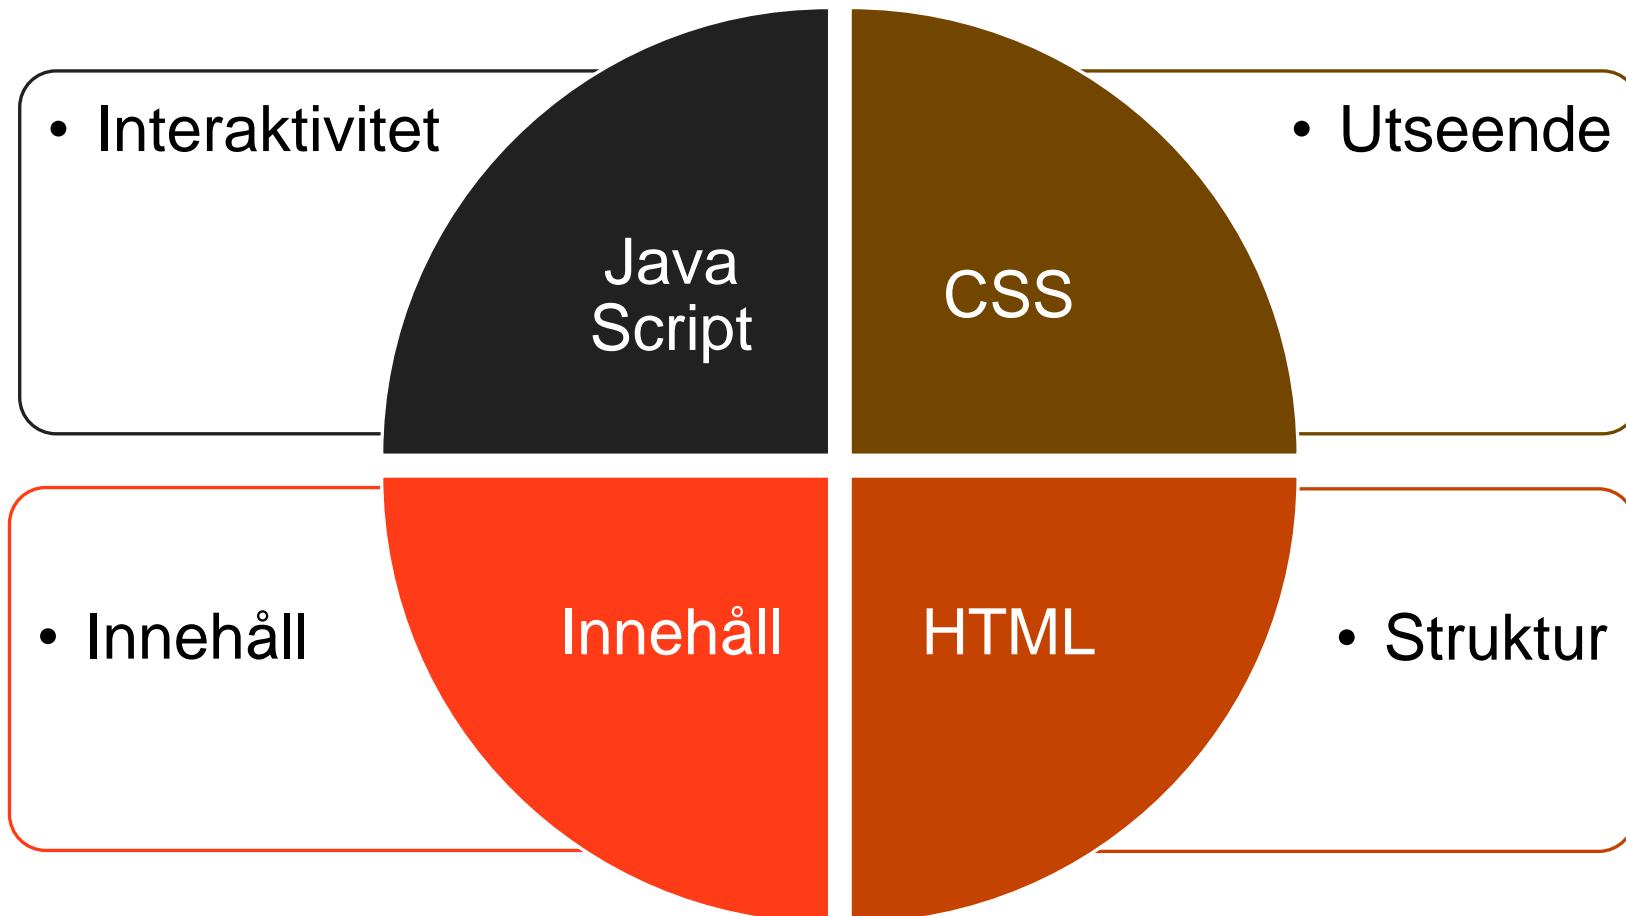

Dagens agenda

css

Lektion

- Box model
- Bilder och bakgrundsbilder, Listor
- Tabell och formulär

Vad består en webbplats av?

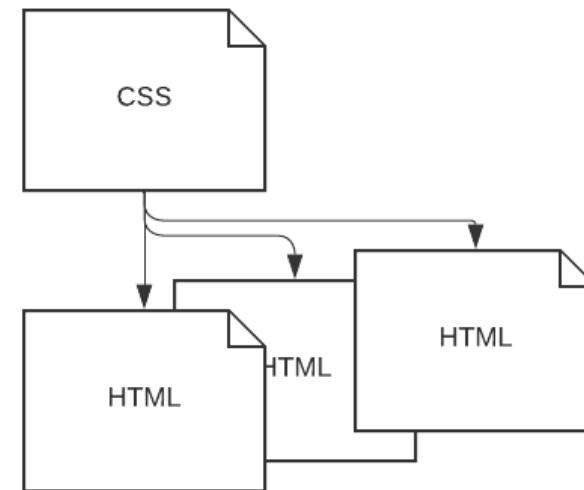

Vad är CSS?

- CSS står för "Cascading Style Sheets"
- CSS är ett språk som används för att få bättre kontroll över utseendet (formatering och layout) på webbsidor.
- CSS används tillsammans med HTML för att definiera hur innehållet ska presenteras!
- CSS 1 (1996)
- CSS 2 (1998)
- CSS 2.1 (2011)
- CSS 3 (Start 1999 -)

Varför CSS?

- CSS är en samling formateringsregler som styr utseendet på en eller flera webbsidor.
- Med CSS skiljer man mellan innehåll/struktur och utseende/presentation.
- Med CSS får du bättre kontroll över layout, teckensnitt, färg, bakgrund och mycket mer!
- Man får renare HTML-dokument som är lättare att felsöka och är oftast tillgängliga/sökmotorvänliga!

Skapa en CSS-Regel

Syntax

```
selektor {  
    egenskap: värde;  
    egenskap: värde;  
    ...  
}
```

Exempel

```
body {  
    color: green;  
}
```

Koppla HTML och CSS

Metod 1: Extern CSS (separat CSS-fil)

- Skriv CSS-reglerna i en separat CSS-fil (t.ex. style.css)
- Länka till CSS-filen med hjälp av en taggen <link>

style.css

index.html

```
<head>
    <title>Extern CSS</title>
    <link href="style.css" rel="stylesheet">
</head>

<body>
    Lorem ipsum dolor sit amet, consectetur
    adipisicing elit...
</body>
```

```
body {
    color: red;
}
```

Koppla HTML och CSS

Metod 2: Intern CSS (i head)

Skriv CSS-reglerna i dokumenthuvudet i taggen **<style>**

```
<head>
  <title>CSS</title>
  <style>
    body {
      color: red;
    }
  </style>
</head>
<body>
  Lorem ipsum dolor sit amet, consectetur adipisicing elit...
</body>
```

Koppla HTML och CSS

Metod 3: Inline CSS (inne i HTML-taggar)

Inline CSS innebär att man skriver CSS-egenskaper direkt i HTML-taggar med hjälp av attributet style.

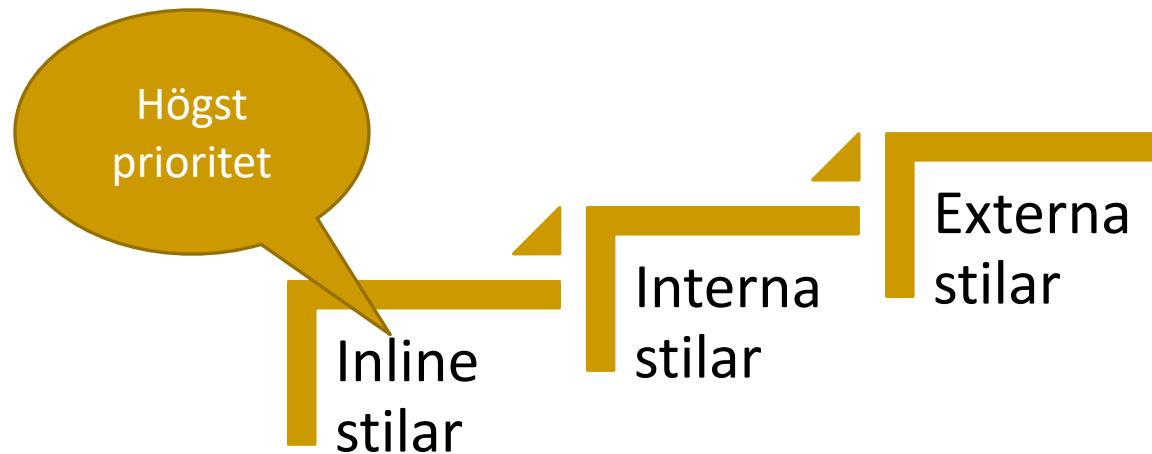

```
<p style="color:blue;">  
    Lorem ipsum dolor sit amet, consectetur adipisicing elit...  
</p>
```

Vad betyder Cascading?

- Cascading innebär att stilmallar kan överlappa varandra!
- Ibland kan flera egenskaper säga emot varandra.
- För att lösa detta behöver webbläsaren följa en ”kaskadordning”.
- Kaskadordningen anger i vilken ordning olika egenskaper ska gälla.

Kaskadordning

- Webbläsaren läser in ett HTML-dokument uppifrån och ned!
- CSS-egenskaper som läses in sist har högre prioritet!
- OBS! Länken (link-taggen) till externa mallar som placeras nedanför interna mallar (style-taggen) har högre prioritet.

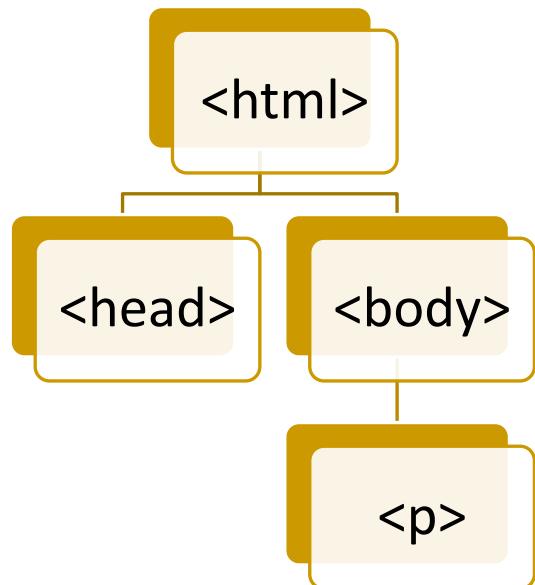

Arv (Inheritance)

Arv är en viktig princip i CSS

Ett "barn-element" är ett element som skrivs inuti ett annat element.

Barn-element ärver förälderns egenskaper.

```
body {  
    color: green;  
}
```

<p> ärver egenskapen color från body

CSS-Selektorer

Selector	Example	Example description
<u>.class</u>	.intro	Selects all elements with class="intro"
<u>.class1.class2</u>	.name1.name2	Selects all elements with both <i>name1</i> and <i>name2</i> set within its class attribute
<u>.class1 .class2</u>	.name1 .name2	Selects all elements with <i>name2</i> that is a descendant of an element with <i>name1</i>
<u>#id</u>	#firstname	Selects the element with id="firstname"
<u>*</u>	*	Selects all elements
<u>element</u>	p	Selects all <p> elements
<u>element.class</u>	p.intro	Selects all <p> elements with class="intro"
<u>element,element</u>	div, p	Selects all <div> elements and all <p> elements
<u>element element</u>	div p	Selects all <p> elements inside <div> elements
<u>element>element</u>	div > p	Selects all <p> elements where the parent is a <div> element
<u>element+element</u>	div + p	Selects the first <p> element that is placed immediately after <div> elements
<u>element1~element2</u>	p ~ ul	Selects every element that is preceded by a <p> element
<u>[attribute]</u>	[target]	Selects all elements with a target attribute

Källa [CSS Selectors Reference \(w3schools.com\)](https://www.w3schools.com/cssref/css_selectors.asp)

[Try CSS Selector \(w3schools.com\)](https://www.w3schools.com/howto/howto_css_js_selector.asp)

CSS klasser

- Du kan dela in dina regler i olika klasser.
- Med klasser specificerar man en regel som kan återanvändas.
- En klass kan användas i valfritt HTML-element.

Arbeta med CSS-klasser

```
<head>
  <style>
    .text-center {
      text-align: center;
    }
  </style>
</head>
<body>
  <h1 class="text-center">Rubrik</h1>
  <p class="text-center"> Lorem ipsum dolor
  sit amet consectetur adipisicing elit...</p>
</body>
```

Namngivning av CSS-klasser

Ge dina klasser tydliga namn.

Klasser ska beskriva var den används och vad den gör.

CamelCase och understreck används inte i CSS, så följande namn är inte bra:

textCenter eller **text_center**

Använd bindestreck (hyphen) mellan dina ord t.ex.

.text-center

.text-right

.page-title

Att skriva på detta sätt kallas kebab-case.

Textjustering

```
h1 {  
    text-align: center;  
}  
h2 {  
    text-align: right;  
}  
p {  
    text-align: justify;  
}
```

CSS Färger

RGB VALUES

Values for red, green, and blue are expressed as numbers between 0 and 255.

rgb(102,205,170)

HEX CODES

Hex values represent values for red, green, and blue in hexadecimal code.

#66cdaa

COLOR NAMES

Colors are represented by predefined names. However, they are very limited in number.

MediumAquaMarine

CSS Färger – Exempel

```
/* color name */
h1 {
    color:darkgray;
}
/* hex code */
h2 {
    color: #2c0dc7;
}
/* rgb value */
p {
    color: rgb(42, 159, 34);
}
```

Bakgrundsfärger

```
h1 {  
    background-color: darkgrey;  
    color: rgb(147, 211, 223);  
}
```

Arbeta med teckensnitt

```
body {  
    font-family: Georgia,  
    Times, serif;  
}  
  
h1, h2 {  
    font-family: Arial,  
    Verdana, sans-serif;  
}
```

SERIF

Serif fonts have extra details on the end of the main strokes of the letters.

EXAMPLES:

Georgia

Times

Times New Roman

SANS-SERIF

Sans-serif fonts have straight ends to letters and therefore have a much cleaner design.

EXAMPLES:

Arial

Verdana

Helvetica

Teckensnitt – Flera familjer

MONOSPACE

Every letter in a monospace typeface is the same width.
(Non-monospace fonts have different widths.)

EXAMPLES:

Courier

Courier New

CURSIVE

Cursive fonts either have joining strokes or other cursive characteristics, such as handwriting styles.

EXAMPLES:

Comic Sans MS

Monotype Corsiva

FANTASY

Fantasy fonts are usually decorative fonts and are often used for titles. They're not designed for long bodies of text.

EXAMPLES:

Impact

Haettenschweiler

Teckenstorlek – Olika enheter

PIXELS	=	PERCENTAGES	=	EMS
h1 32px		h1 200%		h1 2em
h2 24px		h2 150%		h2 1.5em
h3 18px		h3 133%		h3 1.125em
body 16px		body 100%		body 100%

Teckenstorlek – Exempel

```
body {  
    font-size: 12px;  
}  
h1 {  
    font-size: 200%;  
}  
h2 {  
    font-size: 1.3em;  
}
```

Fet och kursiv

```
.info {  
    font-weight: bold;  
}
```

```
.creds{  
    font-style: italic;  
}
```

Övning

- Skapa ett HTML -dokument som innehåller 3 stycken (p)
- Skapa en CSS -regel som formaterar p enligt följande: Verdana, 0.75em.
- Skapa en CSS -klass som formaterar texten enligt följande: Arial, fetstil, 1em.
- Namnge klassen som ingress.
- Koppla klassen ingress till det första stycket i dokumentet!

Google Fonts

Google Fonts är en gratis tjänst som erbjuder icke-standard typsnitt som enkelt kan användas på webbsidor.

[Browse Fonts - Google Fonts](#)

Text-transform

```
h1 {  
    text-transform: uppercase;  
}  
h2 {  
    text-transform: capitalize;  
}  
h3 {  
    text-transform: lowercase;  
}
```

Radavstånd

```
p{  
    line-height: 2em;  
}
```

Rubrik

Lorem ipsum dolor sit amet consectetur adipisicing elit. Deleniti magnam esse iure tempora numquam ea consectetur libero quo odio quam error quae suscipit quas similique mollitia dolores, veritatis laudantium praesentium.

First-letter och First-line

```
p::first-letter {  
    font-size: 200%;  
}
```

```
p::first-line {  
    font-weight: bold;  
}
```

Formatera länkar

```
/* unvisited link */  
a:link {  
    color: red;  
}  
  
/* visited link */  
a:visited {  
    color: green;  
}
```

```
/* mouse over link */  
a:hover {  
    color: hotpink;  
}  
  
/* selected link */  
a:active {  
    color: blue;  
}
```

Text-decoration

```
h1 {  
    text-decoration: overline;  
}
```

```
a {  
    text-decoration: none;  
}
```

```
a:hover {  
    text-decoration: underline;  
}
```

Övning

1. Genom att använda HTML och CSS visa en hamburgermeny som övergår till en kryssknapp när du håller muspekaren
2. Genom att använda HTML och CSS skapa en interaktiv popout-menyn på "hover"/fokus
3. Genom att använda HTML och CSS skapa en grupp av objekt där en tonas ut när objektet svävas över

Uppgift 1 – återskapa dessa exempl

Briards

A HEART WRAPPED IN FUR

The briard, or berger de brie, is a large breed of dog traditionally used as a herder and guardian of sheep.

Breed History

The briard, which is believed to have originated in France, has been bred for centuries to herd and to protect sheep. The breed was used by the French Army as sentries, messengers and to search for wounded soldiers because of its fine sense of hearing. Briards were used in the First World War almost to the point of extinction. Currently the population of briards is slowly recovering. Charlemagne, Napoleon, Thomas Jefferson and Lafayette all owned briards.

}
```

Photo

The Rhodes piano is an electro-mechanical piano, invented by Harold Rhodes during the fifties and later manufactured in a number of models, first in collaboration with Fender and after 1965 by CBS. It employs a piano-like keyboard with hammers that hit small metal tines, amplified by electromagnetic pickups.

Margin och Padding

Margin anger marginaler d.v.s. avståndet mellan kanten på ett element och ett annat element.

Padding anger utfyllnaden d.v.s. avståndet mellan innehållet i ett element och elementets kant.

[CSS Margin](#)

[CSS Padding](#)

The 1-value syntax: `border-width: 1em` — The unique value represents all edges

The 2-value syntax: `border-width: 1em 2em` — The first value represents the vertical, that is top and bottom, edges, the second the horizontal ones, that is the left and right ones.

The 3-value syntax: `border-width: 1em 2em 3em` — The first value represents the top edge, the second, the horizontal, that is left and right, ones, and the third value the bottom edge

The 4-value syntax: `border-width: 1em 2em 3em 4em` — The four values represent the top, right, bottom and left edges respectively, always in that order, that is clock-wise starting at the top (The initial letter of Top-Right-Bottom-Left matches the order of the consonant of the word *trouble*: TRBL)

Kortformer för margin och padding

`padding: 10px 20px 30px 40px;`

`margin: 10px 20px 30px 40px;`

Automatiska marginaler

Automatiska marginaler tillsammans med bredd centerrar ett block.

Uppgift

- Skapa ett HTML-dokument.
- Skriv några rubriker och lägg till lite Lorem Ipsum.
- Formatera rubrikerna (valfri formatering).
- Skapa en CSS-klass som visar en textruta som en post-it lapp (gul bakgrund med kantlinjer).
- Koppla klassen till ett valfritt stycke.
- Flytta alla CSS-regler till en extern CSS-fil.
- Skapa 3 nya HTML-sidor.
- Koppla samma stilmall till alla sidor.
- Länka alla sidor till varandra

Uppgift

Skapa din bloggsida – använda margin och padding

Planting Guide

Magnolia

Magnolia grandiflora, commonly known as the **Southern magnolia** or **bull bay**, is a tree of the family Magnoliaceae native to the southeastern United States, from coastal Virginia south to central Florida, and west to eastern Texas and Oklahoma. Reaching 27.5 m (90 ft) in height, it is a large striking evergreen tree with large dark green leaves and large white fragrant flowers. Widely cultivated around the world, over a hundred cultivars have been bred and marketed commercially. The timber is hard and heavy, and has been used commercially to make furniture, pallets, and veneer.

Ranunculus

Ranunculus asiaticus (**Persian Buttercup**) is a species of buttercup (Ranunculus) native to the eastern Mediterranean region in southwestern Asia, southeastern Europe (Crete, Karpathos and Rhodes), and northeastern Africa. It is a herbaceous perennial plant growing to 45 cm tall, with simple or branched stems. The basal leaves are three-lobed, with leaves higher on the stems more deeply divided; like the stems, they are downy or hairy. The flowers are 3-5 cm diameter, variably red to pink, yellow, or white, with one to several flowers on each stem.

Tulip

Tulipa gesneriana L. or "*Didier's tulip*" is a plant belonging to the family of Liliaceae. This species has uncertain origins, possibly from Asia, and has become naturalised in south-west Europe. Most of the cultivated species, subspecies and cultivars of tulip are derived from *Tulipa gesneriana*. The flower and bulb can cause dermatitis through the allergen, tuliposide A, even though the bulbs may be consumed with little ill-effect. The sweet-scented bisexual flowers appear during April and May. Bulbs are extremely resistant to frost, and can tolerate temperatures well below freezing - a period of low temperature is necessary to induce proper growth and flowering, triggered by an increase in sensitivity to the phytohormone auxin. The bulbs may be dried and pulverised and added to cereals or flour.

Quotes from Edgar Allan Poe

- I have great faith in fools; self-confidence my friends call it.
- All that we see or seem is but a dream within a dream.
- I would define, in brief, the poetry of words as the rhythmical creation of Beauty.

```
ul {  
    list-style: inside circle;  
    width: 300px;  
}  
  
li {  
    margin: 10px 0px 0px 0px;  
}
```

Skapa en vertikal navigeringsmeny

En navigeringsmeny i CSS består av två delar:

1. En punktlista med länkar till andra sidor.
2. En CSS-mall som formaterar alla element i listan.

Uppgift 4

Skapa en html sida – galerie, med valfritt innehåll (text, bakgrund, bilder, färg etc.). Använda HTML och CSS.

Följa modellen till höger.
Varje bild-kort har shadow bakom.

Ni får ersätta med någon annan bild.

A template for an HTML gallery page. At the top, a navigation bar with tabs for "home", "galerie", "about", and "contact". Below the navigation is a large placeholder area with a dotted border and the text "IMAGES LOGO 728x90". A descriptive text "Here you can view all the images Placeholder.com provides." is centered below this. The main content area contains a 2x3 grid of image cards. Each card has a light gray background, a thin dark border, and a drop shadow. It features a blue gear icon and the text "Image 1" or "Image 2" through "Image 6". Below each image is its dimensions "220 x 198" and the text "Powered by HTML.COM". At the bottom of the page is a footer bar with the copyright notice "© 2022 My website".

CSS Tabeller

[CSS Styling Tables](#)

Egenskaper

- width
- padding
- text-transformation
- letter-spacing, font-size
- border-top, border-bottom
- text-align
- background-color
- :hover
- ...

Några tips för styling av tabeller:

- Cells padding
- Särskilja rubriker
- Skugga alternativa rader
- Justera (align) siffrorna

[Table styles \(htmlandcssbook.com\)](#)

Tabeller

empty-cells

```
<table class="one">
  <tr>
    <td>1</td>
    <td>2</td>
  </tr>
  <tr>
    <td>3</td>
    <td></td>
  </tr>
</table>
<table class="two">
  <tr>
    <td>1</td>
    <td>2</td>
  </tr>
  <tr>
    <td>3</td>
    <td></td>
  </tr>
</table>
```

1	2
3	
1	2
3	

```
td {
  border: 1px solid #0088dd;
  padding: 15px;}
```

```
table.one {
  empty-cells: show;}
```

```
table.two {
  empty-cells: hide;}
```

Tabeller

border-spacing, border-collapse

1	2
---	---

3	4
---	---

1	2
3	4

```
td {  
    background-color: #0088dd;  
    padding: 15px;  
    border: 2px solid #000000;}
```

```
table.one {  
    border-spacing: 5px 15px;}
```

```
table.two {  
    border-collapse: collapse;}
```
